Program Overview

The AQ – Experiential Outdoor Education course is 120 hours; open to candidates who meet the entry requirements identified in the Teacher’s Qualifications regulation. Successful completion of this course will be recorded on the candidates Certificate of Qualification and Registration.

In keeping with traditional Anishinaabek Pedagogical approaches to education, the learning in this course models the content of outdoor experiential education in that much of the teaching and learning is experienced outside of the classroom; this will provide candidates with a model they can take with them to their own teaching.
